

## **LABOUR'S QUADRUPLE WHAMMY**

### **Four Disastrous Policies**

#### **Airport Expansion**

If Labour is sincere about reducing carbon emissions why are they encouraging airport expansion?

#### **Relaxation of Planning Rules**

Our precious green belts could be under threat. Do we really want to lose any more of our countryside to urban sprawl?

#### **Post Office Closures**

Post Offices are a vital part of the rural community. They are indispensable to the elderly and to those without cars. The Liberal Democrats have always opposed these closures and will continue to do so.

#### **Axing of some Railway Lines**

This again is an environmentally unfriendly plan and will force more cars onto our already overcrowded roads.

### **How the Liberal Democrats will change the NHS**

Since Labour came to power in 1997 the NHS has undergone constant organisational change micro-managed by ministers and the Department of Health in Whitehall. Some NHS trusts have huge financial deficits resulting in thousands of job losses. They now have to compete against government- subsidised, independent sector treatment centres. These private clinics have guaranteed volumes of business, do not deal with complex cases, and play no role in the training of clinical staff. **Liberal Democrats will decentralise decision-making in the NHS, establish greater local accountability in areas such as Rutland and Melton, and ensure much closer working between primary and social care.**
